

AssetTrack Voyager

The GPX AssetTrack Voyager is our most versatile tracker, offering the perfect combination of long battery life and dynamic tracking options. Unique tracking modes allow for extended battery life while still providing users with real time tracking where continuous location visibility is necessary. Through the use of multiple different location technologies, this device provides the most accurate location updates even in places where other trackers fall short.

REPORTING MODES

Scheduled Timing Report

Reports at preset, user-defined time intervals (default: every 15 minutes)

Low Power Report

Alert when battery is low

Continuous Reporting

Device can report every 5 minutes for emergency tracking or repo scenarios

SPECIFICATIONS

Standby Time

Up to 2.5 weeks reporting every 15 minutes, 20 months at one report per day

Size

4.33in x 2.67in x .98in (110mm x 68mm x 25mm)

Weight

233g

Operating Temperature

-30°C ~ +80°C

Operating Network/Bands

4G LTE Cat-M1 (eMTC): FDD
B1/B2/B3/B4/B5/B8/B12/B13/B14/B18/B19/B20/
B25/B26*/B27/B28/B66/B85
4G LTE Cat-NB2 (NB-IoT): FDD
B1/B2/B3/B4/B5/B8/B12/B13/B18/B19/B20/B25/
B26*/B28/B66/B71/B85
EGPRS: 850/900/1800/1900MHz

Sensors

anti-tamper sensor
