AssetTag Pro

The AssetTag Pro improves location visibility by leveraging the Hubble terrestrial network. Each AssetTag Pro broadcasts a unique Bluetooth signal that is picked up by nearby Hubble-enabled gateways — including Android and iOS devices running apps that integrate the Hubble SDK, such as Life360 — and relayed back to the GPX platform, surfacing the tag's location on the map. The result is a compact, long-lasting tracker that delivers wide-area coverage without the cost or complexity of a cellular subscription.

GENERAL FEATURES

Main Chip
Nordic nRF52811

Bluetooth
Bluetooth 4.2 (hardware compatible with Bluetooth 5.1)

Range
Up to 150 ft indoor / 225 ft outdoor

Dimension
70mm (2.76in) x 46mm (1.81in) x 21mm (0.83in)

Weight
33.5g (1.18oz) - With battery

Waterproof Rating
IP67

Color
Grey

Installation
Hang, Sticker, Screw

Button
Inner mechanical button

LED
Single red LED

Power on/off
Press and hold inner mechanical button

POWER

Power Supply
Replaceable 1000mAh lithium coin CR2477 battery

Average Current
21uA (Default settings, without 3-axis G-sensor)

Lifetime
Up to 4 years

ENVIRONMENTAL

Operating Temperature
General -20°C / + 60°C
-40°C / + 85°C can be customized

Storage Temperature
-20°C / + 70°C (without battery)
10°C / + 25°C (with battery)

Humidity
0% ~ 95% (non-condensing)

CERTIFICATIONS

USA
FCC

Europe
CE-RED, CE-LVD, CE-EMC, REACH, RoHS

Other
Additional certifications or approvals can be customized
